Electric projector screen 200x200cms. APPP200E

With engine and system of total collection screen fabric, Approx expands its product range with the E-series screens. This series combines quality and price in this product segment to unprecedented scale!

The display is designed for use in conference and meeting rooms, as well as for home theater enthusiasts who want excellent quality.

The simple design of the housing provides a very discreet appearance, even when the fabric is fully retracted, leaving no support or surplus exposed to view! The best projection fabric, useful life and super quiet motor perfectly defines these models.

- **Dimensions: 200x200cms.**
- **Ideal for projectors**
- **Opaque black back**
